REFLECTING YOUR STYLE

AAMA and NFRC Certified
ENERGY STAR RATED

UNRIVALED QUALITY
UNMATCHED SELECTION
LIFETIME WARRANTY

Our Architectural Series provides the versatility to meet whatever your home requires — all with the style and performance to enhance the beauty and energy efficiency of your home.

Finally...one window system for all applications.

The Architectural Series lets you make a statement of style and quality for your new construction or remodel application. This product is designed with an aesthetic appeal allowing your window solutions to be a step above the rest. Add the extensive chambers and you have an extremely strong and energy-efficient window.

This versatile series provides a full selection of complimentary products—awnings, casements, sliders, tilt-in single hungs, and picture windows. All with a lifetime warranty and Comfort Design's signature quality.

1100 Series STUCCO

3 1/4"

* Patent-pending "Stucco Gutter"

1100 Series WIDE

3 1/4"

9000 Series NARROW

2 3/8"

PRODUCT HIGHLIGHTS:

- Multi-chambered frames for rigidity and thermal efficiency. Fusion-welded corners for superior strength and frame alignment.
- Metal reinforced meeting rail and sash for added strength. Cam locks and receivers attach firmly into the metal reinforcement for added security. The sash and meeting rail are designed to "interlock" for maximum weatherproofing.
- Frames have matching and distinctive Architectural exterior design features for precise beauty and functional details.
- The Architectural series provides a window system for all applications. The Architectural 3 1/4" frames are available in block, nail fin and stucco fin. The 2 3/8" frame is available in block and nail fin.
- Comfort Pac IG System with low-e glass, argon, warm edge spacer, and a minimum of double-strength glass, virtually eliminating seal failure while providing peak performance and comfort.
- Dual pull rails for convenience and ease of operation.
- All windows feature offset drainage systems with exterior weep-hole covers.
- Single Hung windows are standard with "tilt-in" feature for easy cleaning. Stainless steel constant force balance systems provide a lifetime of smooth operation.
- Horizontal sliders with "equal sight lines" for a balanced look. Tandem stainless steel rollers provide a smooth glide on an easy-to-clean raised roller track.
- Architectural "STUCCO" frame incorporates the patent-pending "Stucco Gutter" for added protection from water penetration.
- Full array of specialty glass and decorative grid options available.
