ALL ULTREX® SERIES

The Combination of
Beauty and Strength

Built to perform:

Integrity from Marvin® Windows and Doors benefits from Marvin's heritage of excellence spanning four generations of family leadership dedicated to quality, service, innovation and community.

Inside and out, Integrity's All Ultrex product series offers the strength of Ultrex® pultruded fiberglass, a material patented over 20 years ago when Integrity pioneered the fiberglass windows and door category. We continue to be industry leaders with durable, stable, low-maintenance and energy-efficient products. But the real beauty of this product line is that it's as elegant as it is tough, with sleek fiberglass construction in a variety of popular styles.

The Marvin® Family Advantage

At Integrity®, we believe it is essential to live up to our name. Integrity windows and doors are made with Ultrex®, a pultruded fiberglass material with an acrylic finish patented over 20 years ago when Integrity pioneered the fiberglass windows and door category. We have led the category ever since with a commitment to products that are tough, smart, long lasting and worry-free.

PIONEERS OF PERFORMANCE

Ultrex[®], quite possibly the perfect building material, outperforms roll-form aluminum, vinyl and vinyl/wood composites in virtually every measurable category.

Low Thermal Expansion

Ultrex remains stable in extreme temperatures and expands at nearly the same rate as glass, resulting in windows that resist performance sapping seal failure and stress cracks.

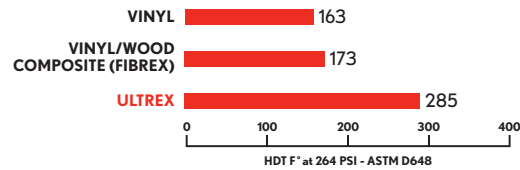

COMPARISON OF EXPANSION & CONTRACTION

Ultrex Can Take the Heat

Ultrex is cured and will not melt or lose its true shape, even when exposed to extreme temperatures of up to 285° F.

HEAT DEFLECTION

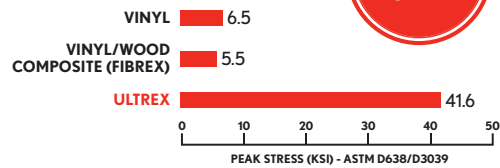

BENEFIT: Ultrex is a very stable material with distortion and sagging resistance that far exceeds that of other materials.

The Beauty of Strength

Ultrex is eight times stronger than vinyl and has the tensile strength of steel, staying true and resisting sagging year after year.

TENSILE STRENGTH

Best in Class Finish

Ultrex was the first and only fiberglass finish to be verified to any of AAMA's voluntary finish specifications for fiber reinforced thermoset profiles (fiberglass). The Ultrex patented acrylic cap finish is verified AAMA 623-10 and 624-10, and has passed the AAMA 625-10 lab based performance test protocols; 625-10 outdoor weathering test protocols are in process.

AAMA VERIFIED FIBERGLASS FINISH

ULTREX

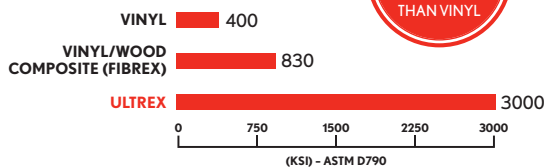

COMPETITION

The Ultrex finish is up to three times thicker than the competition.

FLEXURAL MODULUS

All Ultrex products provide the clean sightlines that contemporary style craves with the ultimate in Ultrex low maintenance, inside and out.

Strong Options to Fit Your Needs

All Ultrex Series windows and doors come in a full range of styles. Customize your project with a variety of options including colors, divided lites and hardware choices.

Windows and Doors

All Ultrex windows and doors feature exceptionally durable Ultrex interiors and exteriors that offer low-maintenance, high-performance beauty. Plus, All Ultrex insert windows are perfect for replacement. Windows and doors with the strength of Ultrex inside and out are available in the following styles to suit your home:

- Casement & Awning
- Double Hung
- Polygon
- Single Hung
- Glider
- Sliding Patio Doors
- Round Top

Install with Ease

Integrity offers an industry-leading 10 day delivery to local distributors. Installation is made easy with folding nailing-fins, through jamb installations, installation brackets and factory applied jamb extensions. Factory services include mulling, pre-cut exterior trim kits, Window Opening Control Devices and much more.

Our products are tough – and backed by a 10 year product warranty. Integrity continues its commitment to customer service well after installation with our service staff just a phone call away plus online resources at IntegrityWindows.com.

* Ultrex fiberglass has the tensile strength of steel.

FROM SUSAN MARVIN:

"At Integrity® from Marvin® Windows and Doors, we didn't join the fiberglass window and door industry – we pioneered it. In 1994, Integrity was born from The Marvin Companies' century-long heritage of service, craftsmanship and quality with a focus on all-out performance."
